

Hydraulic Top Drives

Drillmec manufactures a full range of hydraulic top drives.

Drillmec HTD series top drives can be fitted to almost any rig in order to improve performance and help in operations such as directional and horizontal drilling.

Drillmec designs top drive rails and torque tubes starting from drawings of the customer's rig or from data collected by its technicians directly on the rig field.

The torque tube provides the connection between the new HTD top drive and the existing rig.

The HTD top drive is supplied with an independent hydraulic power pack and controls and with a transportation cradle designed to hold it and help in moving.

HTD SERIES

Key Features:

Reduced dimensions and weight / Easy and fast installation procedure

NSTALLATION ALSO ON OTHER

Power swivel driven by one top-head nollow shaft hydraulic motor with two

HIGHER TORQUE & HIGH CONTROL

Polymer Slide Guide Runners LESS MAINTENANCE THAN

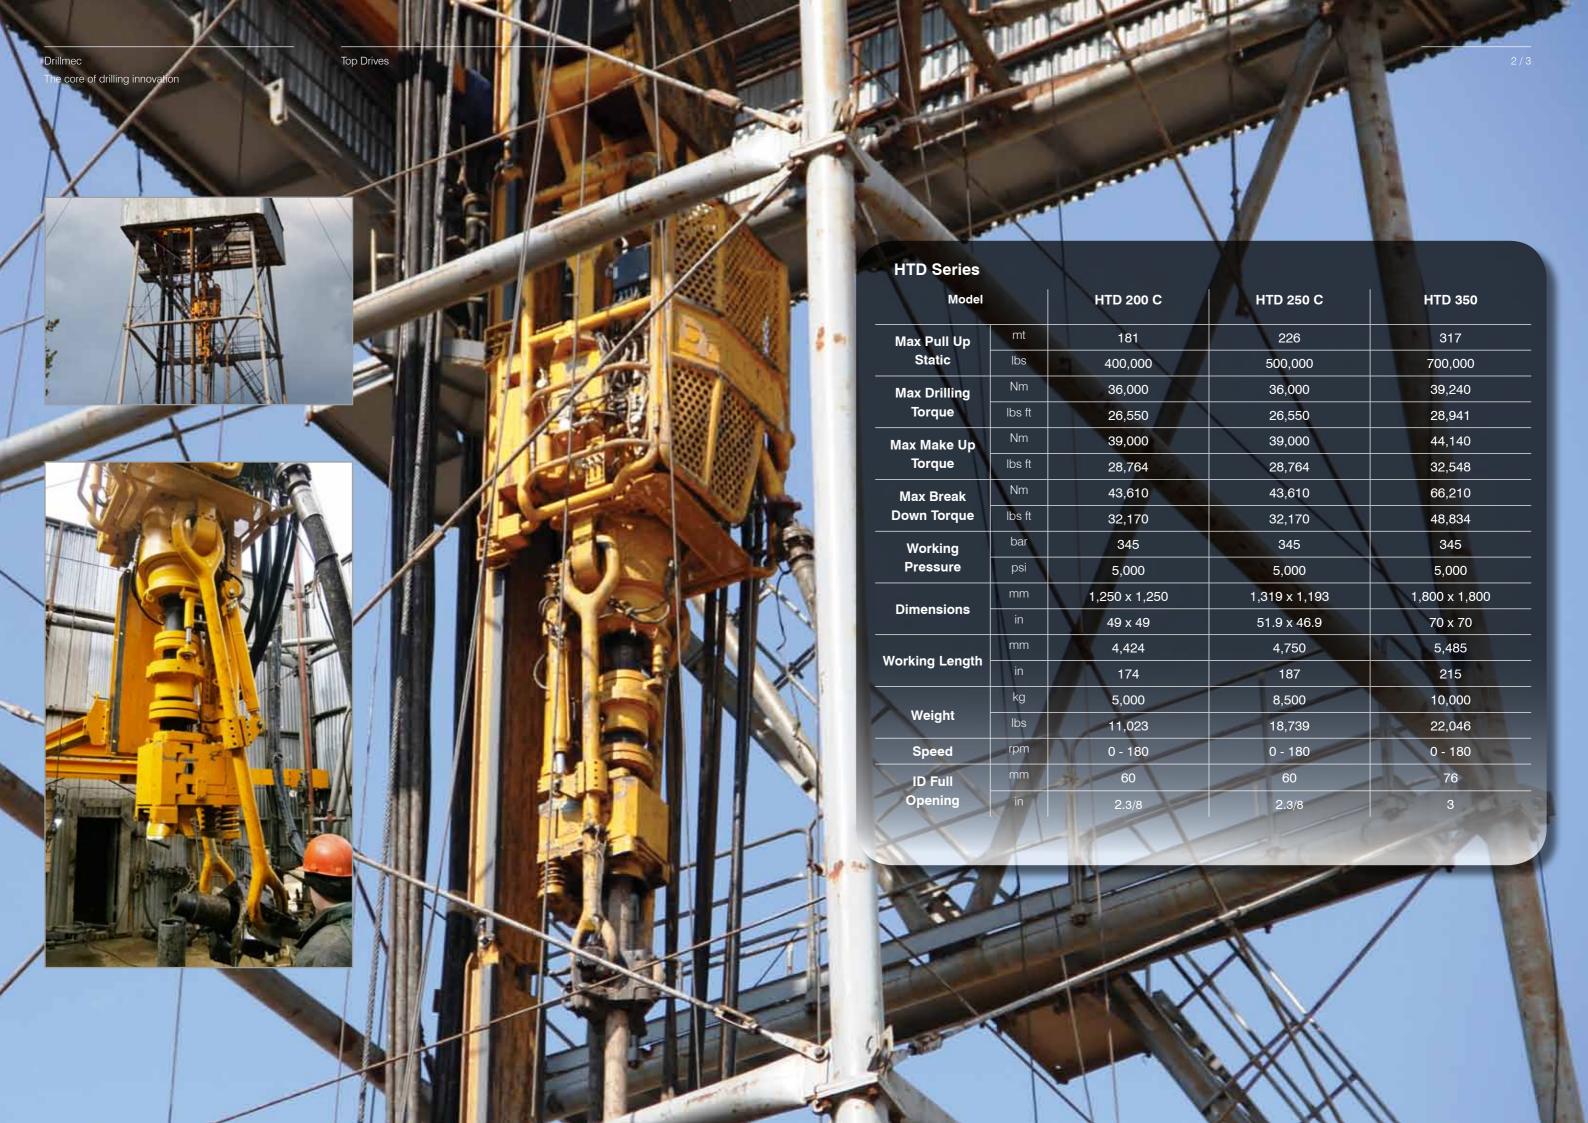

disc brake direct on the shaft

MORE PRECISION & SENSIBILIT

Second IBOP valve
ENHANCED SAFETY

Drillmec Top Drives

The core of drilling innovation

Quality System

Policy

Drillmec has always viewed continuous improvement of company processes and complete satisfaction of customer's needs as essential factors for standing out on the highly complex, competitive oil and gas market.

Drillmec's Quality System and HSE System are essential tools for achieving its business goals.

In accordance with its general aims and strategies for growth, Management promotes:

- The central role of the customer
- Full involvement of all personnel to ensure complete awareness of the significance and importance of their work and how they can contribute to achieving quality goals, environment, health and safety protection
- Continuous improvement of the quality of products and services, especially through a strong drive toward technological innovation
- Continuous improvement of process performance
- Safeguarding of the environment and protection of workers' health and safety. Such commitment is widespread not only to our workers, but even to our subcontractors and suppliers.

All drilling equpiment are matched to provide optimal performance with keen attention paid to reliability and running costs.
