

# SAP Digital Business Services

Our SAP solutions are based on our team's extensive project experience and focused strategy on SAP. We work in close cooperation with SAP to deliver the best possible solutions to our customers. The core services include Enterprise Application Support, Information Technology and Consulting Services.

Our service portfolio includes end-to-end business solutions and implementations on SAP Business All-in-One and SAP Business Suite including new dimension products.

## Our SAP Services

A graphic showing a hand holding a pen over a digital interface with various icons like gears, a cloud, and a bar chart.

MANAGED SAP SERVICES

A central smartphone icon connected to various other icons representing different services and devices.

SAP INTEGRATION

An illustration of a desk with a chair, a computer monitor, and a wrench, symbolizing technical support.

SAP SUPPORT

A circular process diagram with four stages: Audit/Analyze, Architect, Implement/Migrate, and Monitor.
