

# Advanced Bolting Solutions Private Limited

<http://www.absbolting.in/>

At ABS, we are committed to technological leadership and customer satisfaction through our highly advanced controlled bolting tools, machining products and flange working tools for joint integrity.

## About Us

We at **Advanced Bolting Solutions Pvt. Ltd.**, manufacture, service provider and export the finest and a wide range of Hydraulic and Tensioner Tools, ever since our establishment of operations in the year **1998**. The commendable range is inclusive of the quality products like, Hytorc Hydraulic Torque Tools & Pumps, Hytorc Pneumatic Torque Tools and Hytorc Tensioners & Reaction Washers, that are highly praised and preferred in the market. The abidance of the industry set guidelines and the utilization of the finest raw materials and modern machines, gives the range superior strength, finishing, dimensional accuracy, performance, service life and resistance to corrosion. Further, the range is priced at the most reasonable rate possible.

Owing to our futuristic infrastructure facility, attaining the firm's goals and objectives is the simple and efficient. The facility spreading over a huge area is known in the market for its highly spacious nature. Our professionals, direct all of their efforts towards the maintenance and taking care of the facility, in the best possible manner. Compartmentalization of our facility, help us in the better and smoother management of the firm's operations. Its resistance to natural calamities like rain, fire, earth quake and insect infestation, reduces the risk of product damaging. Further, our abidance of industry set norms and work ethics, have helped us in generating a huge client-base in India.
